22.01 Purpose and Intent

- A. The Village finds and declares that sex offenders are a serious threat to public safety. When convicted sex offenders re-enter society, they are much more likely than any other type of offender to be rearrested for a new sexually based crime. Given the high rate of recidivism for sex offenders, and that reducing opportunity and temptation is important to minimizing the risk of re-offense, there is a need to protect children where they congregate or play in public places in addition to the protections afforded by state law. The Village finds and declares that, in addition to schools and daycare centers; children congregate or play in a number of public places, including parks and other facilities for children. It is the intent of this ordinance to serve the Village's compelling interest to promote, protect and improve the health, safety, and welfare of Village citizens by creating areas around locations where children regularly congregate in concentrated numbers wherein certain sexual offenders are prohibited from entering or establishing residency.
